**CYCLE 1 AND CYCLE 2 OF BASIC EDUCATION
(GRADE 1 TO G6)**

The program includes academic activities that are designed to match the basic needs of the students in cycles one and two in Mathematics, Arabic, and English/French that enable them to meet successfully the objectives and competencies of the upper grade level. The program also includes recreational educational extracurricular activities as well as Social Emotional learning that tend to reinforce the well-being of students needed to ensure recovery.

**CYCLE 3 OF BASIC EDUCATION
(Grade 7 to G8)**

☒ The summer school programs and activities aim to provide support to middle school students, compensate for learning loss, and enhance their acquisition of the necessary competencies and knowledge in mathematics, languages and sciences to enable them to prepare for the next school year. This is in addition to implementing sports and recreational activities within a safe learning environment.

ABOUT OUR PROGRAMS

Summer School 2022 will focus on fun and engaging activities to help Lebanese and non-Lebanese students in Grades 1 to 8 from all Governorates to learn content missed because of the 2-year academic disruption and support their success in the upcoming school year and beyond.

Registration is open from July 20 till July 28.
